So you've decided to relocate?

We at **Eagle Export Cargo** are highly experienced in the organisation of every aspect of your **international move**

. Our staff our consummate professionals, who understand the importance of the safe migration of your loved, cherished and expensive possessions.

Our personal service is second to none, whether you have a couple of cartons or the complete contents of a house or office to ship, we are here to ensure it's as painless and stress free as humanly possible. We offer advice on the **best packing materials** and systems, if you should choose to pack yourself. Alternatively, we can arrange for our team to do the packing for you either at your home or business, or at our depot.

We offer services by road, sea and air to any address worldwide, at very competitive rates.

If you require a dedicated sole use (FCL) container, then we can **deliver** the empty container to your address, where it will be loaded and sealed in your presence. The container will then be delivered directly from your door to the delivery address, sealed and secure. We can also provide storage facilities, allowing you to consolidate your possessions prior to **shipment**

. You may wish to use this service if you are taking time to add effects to your container, buying new things etc., before the departure date.

If you opt for our shared or part container service (LCL), then we can pack and measure your consignment, either at your address or in our warehouse. We will then load it into the next available LCL container departing to your destination. This service means that you only pay for the amount of space your goods take up in any given container.

When the container arrives at its destination port, our team will guide you through any import procedures, attend to customs clearance and coordinate any additional transportation. Making our promise of a **door-to-door service** a reality.

Your **Personal and Household effects** safely and efficiently delivered anywhere in the world. Contact us for a quotation or advice. Problem solved!
